Disclaimer

1. The compatibility matrix is for reference purpose only. It is subject to update at any time without notice.
2. The compatibility test uses the versions as listed only.
3. Although the test may spend a few hours up to a few days, it does not guarantee the quality or reliability of these devices. The 3rd party device which has been listed means, that it can work with our product at the time when testing it.
4. If you don't find on the list a component which you already use, it's doesn't mean, that this component (HBA; JBOD; UPS, ...) don't work with our solution - we just don't tested it
